QUESTION 78
You are configuring automated business processes for an organization.
The business analyst has identified the following requirements:
Invoices need to be approved before payment.
A person who submits an item to workflow cannot approve that item.
You need to recommend a configuration workflow.
What should you recommend?

A. Create an advanced rule to validate signing limit in the workflow.
B. Leave workflow settings at default to prevent approvals.
C. Create a special rule in the workflow to prevent approval.
D. Enable Disallow approval by submitter in the workflow configuration.

Answer: D

QUESTION 79
A client plans to implement Dynamics 365 Finance.
The client is unsure whether to use a cloud-based or on-premises implementation.
For which scenario should the client install the on-premises version of the app?

A. The client is concerned about their retail stores losing internet connection and not being able to process offline store transactions.
B. The client needs to comply with data sovereignty rules in a region where Microsoft Azure Data Centers are limited.
C. The client wants direct access to production environments.
D. The client has integrations that depend on direct Microsoft SQL access.

Answer: D

QUESTION 80
A company is implementing Dynamics 365 Finance.
The company wants to automate expense reports processing.
The new process must provide visibility into all steps of the approval process.
You need to recommend a solution.
Which two solutions should you recommend? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Use Microsoft Power Automate to create a workflow.
B. Use the Business process modeler (BPM) to create a business process flow.
C. Use the PowerApps platform to create a business process flow.
D. Create a workflow that runs on Application Object Server (AOS).

Answer: AD

QUESTION 81
A company uses an on-premises product management application that manages 200 products.
Product information does not change frequently.
You need to synchronize data between the application and Dynamics 365 Supply Chain Management.
Data in Dynamics 365 Supply Chain Management must update in near real time when changes are made in the application.
What should you recommend?

A. OData
B. Batch data API
C. Application Integration Framework
D. Lifecycle Services

Answer: A
Explanation:
https://docs.microsoft.com/en-us/dynamics365/fin-ops-core/dev-itpro/data-entities/integration-overview

QUESTION 82
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
A manufacturing company has multiple factories and distribution centers in remote areas where they have poor internet connectivity. The company is

planning to implement Dynamics 365 Supply Chain Management.
The company's main priorities are uninterrupted factory and distribution center operations, master data management, financial global reporting, and integration with analytics tools.
You need to design the infrastructure.
Solution: Implement the distribution centers and center data repository in the cloud.
Does the solution meet the goal?

A. Yes
B. No

Answer: B

QUESTION 83
An organization is implementing Dynamics 365 Supply Chain Management.
You need to create a plan to define performance test scenarios.
Which three actions should you recommend? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Define the performance testing scenarios.
B. Define whether users of the system will be adequately trained.
C. Determine the size of the production environment in the cloud.
D. Define the expected normal and peak volumes for the functional areas in-scope.
E. Define measured goals and constraints for response time and throughput for each scenario.
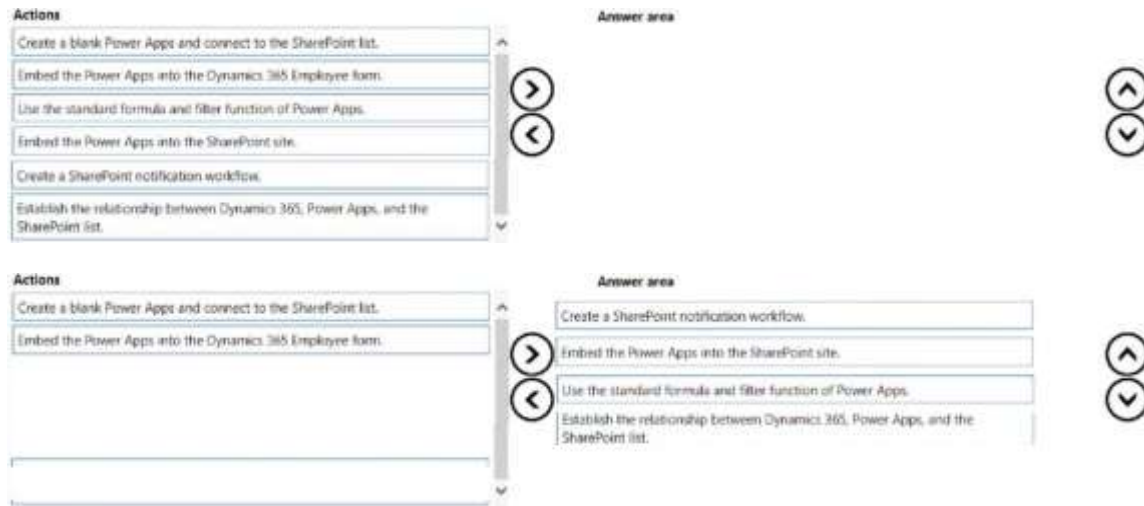

Answer: ADE

QUESTION 84
Drag and Drop Question
A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.
All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.
You need to design an integration solution using Dynamics 365 and SharePoint.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

QUESTION 85
Drag and Drop Question
You are designing a solution for a company.
The solution will integrate with various data sources.
You need to recommend the correct timing for each integration pattern.
What should you recommend? To answer, drag the appropriate timings to the correct patterns. Each timing may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

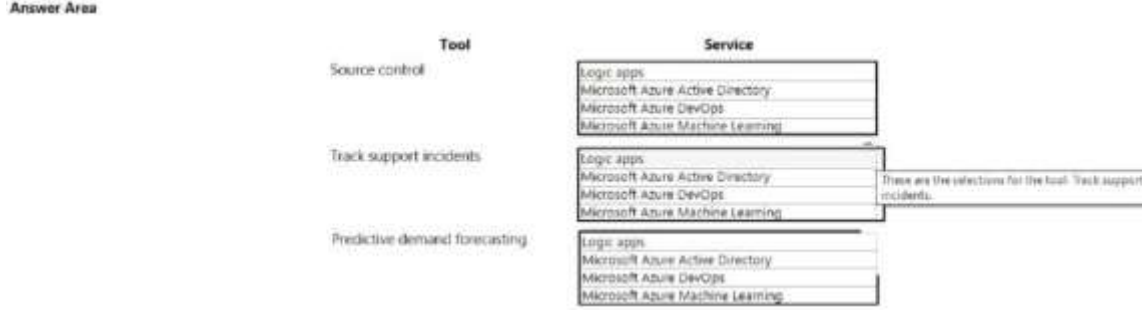

**Answer:**

QUESTION 86
Drag and Drop Question
A graphic design school is implementing ERP by using Dynamics 365 Finance.
The school needs to provide operational training and online training for employees.
You need to identify the right type of instance for the situation.
Which instance type should you recommend? To answer, drag the appropriate instance types to the correct requirements. Each instance type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer:

QUESTION 87
Hotspot Question
A client is implementing Dynamics 365 Finance.
You need to help the client understand which Microsoft Azure tools to use to perform various tasks.
What should you recommend? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer:

QUESTION 88
Drag and Drop Question
A company is planning a Dynamics 365 deployment.
The company needs to determine whether to implement an on-premises or a cloud deployment based on system performance.
You need to work with a developer to determine the proper tool from the Performance SDK to complete performance testing.
Which tool should you use? To answer, drag the appropriate tools to the correct scenarios. Each tool may be used once, more than once, or not at all.
You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Answer:

QUESTION 89
Drag and Drop Question
A company uses Dynamics 365 Supply Chain Management.
You are evaluating the company's new business processes.
You need to determine which tools functional consultants should use to identify any possible gaps and new features available from Microsoft.
What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

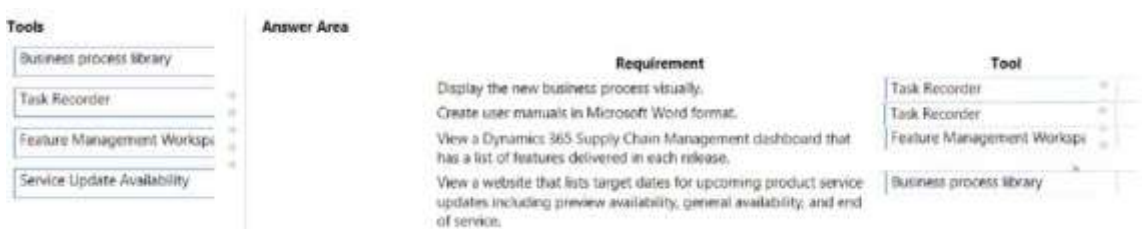

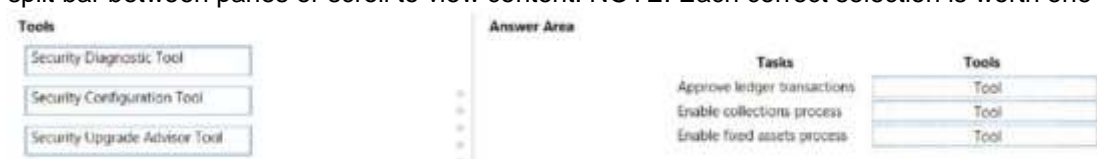

Answer:

QUESTION 90
Drag and Drop Question
An organization is implementing Dynamics 365 Finance.
You need to assign security roles.
Which tools should you use? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all.
You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Answer:

Tools		Answer Area	Tasks	Tools
Security Diagnostic Tool			Approve ledger transactions	Security Diagnostic Tool
Security Configuration Tool			Enable collections process	Security Configuration Tool
Security Upgrade Advisor Tool			Enable fixed assets process	Security Configuration Tool

QUESTION 91
Hotspot Question
A multinational organization is evaluating Dynamics 365 Supply Chain Management. Each regional office uses processes and procedures developed internally without input from the other offices. The organization wants to perform a gap analysis to understand redundancies and additional requirements in their system.
You need to recommend a solution.
Which tool should you recommend? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Tool
Identify differences between regional office processes and procedures.	Business process modeler / Configuration manager / Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	Business process modeler / Microsoft Azure DevOps / Regression suite automation tool (RSAT)
Identify differences between standard company processes and how the system works.	Business process modeler / Configuration manager / Regression suite automation tool (RSAT)

Answer:

Answer Area

Scenario	Tool
Identify differences between regional office processes and procedures.	**Business process modeler** / Configuration manager / Regression suite automation tool (RSAT)
Track the progress of the implementation project and its alignment to documented processes and procedures.	Business process modeler / **Microsoft Azure DevOps** / Regression suite automation tool (RSAT)
Identify differences between standard company processes and how the system works.	Business process modeler / Configuration manager / **Regression suite automation tool (RSAT)**

QUESTION 92
Hotspot Question
A customer is implementing Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The customer wants to use this implementation to standardize business processes.
You need to perform a gap analysis and recommend how to address the gaps.
Which functionality should you recommend for each requirement? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Requirement	Functionality
Multiple requisitions must be consolidated into a single purchase order.	Purchase requisition workflow / Consolidation legal entity / Demand consolidation / Purchase order versions
Headcount must be tracked in the general ledger for reporting purposes.	Statistical accounts / Posting layers / Cost entry / Cost control unit
The system must be configured to maintain appropriate stock levels.	Item coverage / Master planning / Stock counting / Storage dimensions

Answer:

Requirement	Functionality
Multiple requisitions must be consolidated into a single purchase order.	▼ Purchase requisition workflow Consolidation legal entity **Demand consolidation** Purchase order versions
Headcount must be tracked in the general ledger for reporting purposes.	▼ **Statistical accounts** Posting layers Cost entry Cost control unit
The system must be configured to maintain appropriate stock levels.	▼ **Item coverage** Master planning Stock counting Storage dimensions

Explanation:
https://docs.microsoft.com/en-us/dynamics365/supply-chain/master-planning/safety-stock-replenishment

QUESTION 93
Hotspot Question
A distribution center uses Dynamics 365 Supply Chain Management.
When product returns are received at the distribution center, they are inspected, and a replacement is sent to the customer. Customer service processes both the return receipts and replacement orders to speed up the process.
The system must be able to prevent a single user from completing an entire return process.
You need to recommend a solution.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Scenario	Recommendation
The ability to process the receipt of the returned product.	▼ Field security Security role Segregation of duties rule
The ability to issue the shipment advice of the replacement product.	▼ Field security Security role Segregation of duties rule
The ability to prevent the assignment of the permission to issue a customer credit.	▼ Field security Security role Segregation of duties rule

Answer:

Scenario	Recommendation
The ability to process the receipt of the returned product.	▼ Field security Security role **Segregation of duties rule**
The ability to issue the shipment advice of the replacement product.	▼ Field security Security role **Segregation of duties rule**
The ability to prevent the assignment of the permission to issue a customer credit.	▼ Field security **Security role** Segregation of duties rule

QUESTION 94
Drag and Drop Question
Company policy restricts employees from filling expense reports for the reimbursement of alcoholic beverages.
You need to recommend a solution that checks all expense reports for this requirement.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Create a new policy rule for expense keywords rule type.
- Select table name, field name, and Prohibited keywords.
- Create an audit policy for a legal entity.
- Create an audit policy and add the Prohibited keywords.
- Create a new policy rule for Prohibited keywords rule type.

Answer Area

Answer:

Actions

- Create an audit policy and add the Prohibited keywords.
- Create a new policy rule for Prohibited keywords rule type.

Answer Area

- Create a new policy rule for expense keywords rule type.
- Select table name, field name, and Prohibited keywords.
- Create an audit policy for a legal entity.

Explanation:
https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/audit-policy-rules
https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/tasks/define-audit-policies- source-documents

QUESTION 95
Drag and Drop Question
A company uses Dynamics 365 Finance.
The company receives a large number of accounts payable invoices on a regular basis that are currently being entered manually.
You need to research ways accounts payable invoices can be created automatically.
What should you recommend? To answer, drag the appropriate solutions to the correct scenarios. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Answer Area

Solutions	Scenario	Solution
Vendor invoice automation	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	
Optical character recognition (OCR)	Technology that converts contained images into text format.	
EDI 810	Electronic format to send invoices.	
Vendor collaboration	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	

Answer:

Answer Area

Solutions	Scenario	Solution
	Standard interface in Dynamics 365 Finance that can accept machine-ready invoice metadata format with applicable attachments.	Vendor invoice automation
	Technology that converts contained images into text format.	Optical character recognition (OCR)
	Electronic format to send invoices.	EDI 810
	Workspace designed for vendors to view invoice information and to submit invoices to Dynamics 365 Finance.	Vendor collaboration

QUESTION 96
Hotspot Question
A client is planning to implement a Dynamics 365 environment.
The client wants to use Power BI for near real-time reporting and plans on using the Regression suite automation tool to automate testing.
You need to recommend a solution based on the requirements.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Scenario | **Solution**

Implementation type
| Cloud |
| Hybrid |
| On-premises |

Workspace type
| Power BI embedded |
| Power BI pinned dashboard |
| Power BI tiles |

Answer:

Scenario | **Solution**

Implementation type
| Cloud |
| Hybrid |
| On-premises |

Workspace type
| Power BI embedded |
| Power BI pinned dashboard |
| Power BI tiles |

QUESTION 97
Hotspot Question
A mining company is upgrading their system to Dynamics 365 Finance and Dynamics 365 Supply Chain Management.
You need to determine which functionality of the Dynamics 365 suite meets each requirement.
Which functionality should you implement for each requirement? To answer, select the appropriate options from the answer area.
NOTE: Each correct selection is worth one point.

Requirement | **Functionality**

Track maintenance on mining machines and equipment.
| Asset Management |
| Fixed Assets |
| Field Service |

Capture costs for each of the mine locations for capitalization opportunities.
| Project Management and Accounting |
| Fixed Assets |
| Inventory dimension site |

Answer:

Requirement	Functionality
Track maintenance on mining machines and equipment.	▼ **Asset Management** / Fixed Assets / Field Service
Capture costs for each of the mine locations for capitalization opportunities.	Project Management and Accounting / ▼ **Fixed Assets** / Inventory dimension site

Explanation:
https://docs.microsoft.com/en-us/dynamics365/supply-chain/asset-management/
