QUESTION 219

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Online tenant that contains the following email domains:

- Adatum.com
- Contoso.com
- Fabrikam.com

When external recipients receive email messages from the users in the tenant, all the messages are delivered by using the @contoso.com email domain.

You need to ensure that the users send email by using the @fabrikam.com email domain.

Solution: From the Microsoft 365 portal, you set fabrikam.com as the default domain.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/microsoft-365/admin/setup/domains-faq?view=o365-worldwide#how-do-i-set-or-change-the-default-domain-in-microsoft-365>

QUESTION 220

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Online tenant that contains the following email domains:

- Adatum.com
- Contoso.com
- Fabrikam.com

When external recipients receive email messages from the users in the tenant, all the messages are delivered by using the @contoso.com email domain.

You need to ensure that the users send email by using the @fabrikam.com email domain.

Solution: You create an email address policy.

Does this meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:

This would work in Exchange on-premise but you cannot create email address policies for user mailboxes in Exchange Online.

QUESTION 221

Your company has a Microsoft Exchange Server 2019 hybrid deployment.

The company has a finance department.

You need to move all the on-premises mailboxes of the finance department to Exchange Online. The bulk of the move operation must occur during a weekend when the company's Internet traffic is lowest. The move must then be finalized the following Monday. The solution must minimize disruption to end users.

What should you do first?

- A. Schedule a task that runs the New-MoveRequest cmdlet and specifies the Remote parameter.
- B. Run the New-MigrationBatch cmdlet and specify the MoveOptions parameter.
- C. Run the New-MigrationBatch cmdlet and specify the CompleteAfter parameter.
- D. Create a script that moves most of the mailboxes on Friday at 22:00 and the remaining mailboxes on Monday at 09:00.

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/powershell/module/exchange/new-migrationbatch?view=exchange-ps>

QUESTION 222

You have a Microsoft 365 subscription that uses a default domain named contoso.com.

Users report that email messages from a domain named fabrikam.com are identified as spam even though the messages are legitimate.

You need to prevent messages from fabrikam.com from being identified as spam.

What should you do?

- A. Enable the Zero-hour auto purge (ZAP) email protection feature.
- B. Enable the safe list on a connection filter.
- C. Edit the default mail flow rule to bypass the spam filter.
- D. Modify the IP Allow list of a connection filter policy.

Answer: D

Explanation:

<https://docs.microsoft.com/en-us/microsoft-365/security/office-365-security/configure-the-connection-filter-policy?view=o365-worldwide>

QUESTION 223

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are hosted in Microsoft 365. All outbound SMTP email is routed through the on-premises Exchange organization.

A corporate security policy requires that you must prevent credit card numbers from being sent to internet recipients by using email.

You need to configure the deployment to meet the security policy requirement.

Solution: From Microsoft 365, you create a supervision policy.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

You should create a Data Loss Prevention (DLP) policy.

QUESTION 224

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft Exchange Online tenant that contains 1,000 mailboxes.

All the users in the sales department at your company are in a group named Sales.

The company is implementing a new policy to restrict the use of email attachments for the users in the Sales group.

You need to prevent all email messages that contain attachments from being delivered to the users in the Sales group.

Solution: You create a mail flow rule.

Does this meet the goal?

A. Yes

B. No

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/exchange/security-and-compliance/mail-flow-rules/common-attachment-blocking-scenarios>

QUESTION 225

You have a Microsoft Exchange Server 2019 organization.

You need to ensure that a user named User1 can prevent mailbox content from being deleted if the content contains the words Fabrikam and Confidential.

What should you do?

A. Assign the Legal Hold and Mailbox Import Export management roles to User1.

B. Assign the Mailbox Search and Mailbox Import Export management roles to User1.

C. Add User1 to the Security Administrator role group.

D. Assign the Mailbox Search and Legal Hold management roles to User1.

Answer: AB

Explanation:

The Legal Hold management role is required to place a mailbox on Litigation Hold or In-Place Hold. But to create a query-based In-Place Hold, you must also be assigned the Mailbox Search role. Users that have been added to the Discovery Management role-based access control (RBAC) role group (or assigned the Legal Hold and Mailbox Search roles) can place users hold and create a query-based In-Place Hold.

QUESTION 226

Hotspot Question

Your company named Contoso, Ltd. has a Microsoft Exchange Online subscription that uses a domain named contoso.com.

Contoso works with a partner company named ADatum Corporation. ADatum has an Exchange Server 2016 organization that uses a domain named adatum.com.

You need to ensure that users at Contoso can share their free/busy information with the users at ADatum.

What should you do for each company? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

A. Datum:

Configure Microsoft Azure Active Directory Connect.
Create a federation trust between Exchange and Microsoft 365.
Establish identity federation by using Active Directory Federation Services.
Create a sharing policy.

Contoso:

Establish identity federation by using Active Directory Federation Services.
Configure Microsoft Azure Active Directory Connect.
Create an organization relationship.
Create a federation trust between Exchange and Microsoft 365.

Answer:

Answer Area

A. Datum:

Configure Microsoft Azure Active Directory Connect.
Create a federation trust between Exchange and Microsoft 365.
Establish identity federation by using Active Directory Federation Services.
Create a sharing policy.

Contoso:

Establish identity federation by using Active Directory Federation Services.
Configure Microsoft Azure Active Directory Connect.
Create an organization relationship.
Create a federation trust between Exchange and Microsoft 365.

Explanation:

<https://docs.microsoft.com/en-us/exchange/shared-free-busy>

QUESTION 227

Hotspot Question

You have a hybrid deployment of Microsoft Exchange Server 2019.

You need to configure modern attachments for Outlook on the web.

From Exchange Management Shell, which cmdlet should you run? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

<input type="text"/>	-Name Default	<input type="text"/>	Https://Contoso-
Set-CASMailbox		-Identity	
Set-OutlookProvider		-internalSPMySiteHostURL	
Set-ClientAccessRule		-WacExternalServicesEnabled	
Set-OwaMailboxPolicy		-ThirdPartyAttachmentsEnabled	

my.sharepoint.com -ExternalSPMySiteHostURL Https://Contoso-my.Contoso.com

Answer:

Answer Area

▼ -Name Default	▼ https://Contoso-
Set-CASMailbox	-Identity
Set-OutlookProvider	-internalSPMySiteHostURL
Set-ClientAccessRule	-WacExternalServicesEnabled
Set-OwaMailboxPolicy	-ThirdPartyAttachmentsEnabled

my.sharepoint.com -ExternalSPMySiteHostURL https://Contoso-my.Contoso.com

Explanation:

<https://docs.microsoft.com/en-us/powershell/module/exchange/set-owamailboxpolicy?view=exchange-ps>

QUESTION 228

Hotspot Question

You have a Microsoft Exchange Online tenant that contains three users named User1, User2, and User3. Mobile device mailbox policies are configured as shown in the following exhibit.

mobile device access mobile device mailbox policies

NAME	MODIFIED
Default (default)	9/28/2020 8:06 AM
Executive policy	9/28/2020 8:07 AM
Managers policy	9/28/2020 8:07 AM

The users are configured as shown in the following table.

Name	Assigned policy
User1	Executive policy
User2	Managers policy
User3	Default

You create a new mobile device mailbox policy as shown in the following exhibit.

new mobile device mailbox policy

*Required fields

*Name:

Mobile Tablet Policy

- This is the default policy
- Allow mobile devices that don't fully support these policies to synchronize

Policies for Exchange ActiveSync and OWA for Devices

Select the policies that you want to enable for Exchange ActiveSync and OWA for Devices. [Learn more](#)

- Require a password
 - Allow simple passwords
 - Require an alphanumeric password
 - Password must include this many character sets:
 - Require encryption on device
 - Minimum password length:
 - Number of sign-in failures before device is wiped:
 - Require sign-in after the device has been inactive for (minutes):
 minutes
 - Enforce password lifetime (days):
 days
 - Password recycle count:

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
Mobile Tablet Policy will be assigned to User3 automatically.	<input type="radio"/>	<input type="radio"/>
A new user can use a password of 135753.	<input type="radio"/>	<input type="radio"/>
Mobile Tablet Policy will be assigned to new users.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statements	Yes	No
Mobile Tablet Policy will be assigned to User3 automatically.	<input checked="" type="radio"/>	<input type="radio"/>
A new user can use a password of 135753.	<input type="radio"/>	<input checked="" type="radio"/>
Mobile Tablet Policy will be assigned to new users.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 229

Hotspot Question

You have a Microsoft Exchange Online tenant named contoso.com.

Email messages from a remote domain named fabrikam.com are received from a server that uses a wildcard certificate for fabrikam.com and are encrypted by using TLS.

Fabrikam.com is switching to a third-party cloud filtering service for inbound and outbound email. The IP address used by the third-party service is 131.107.200.10.

You need to reconfigure the connector to only accept messages from fabrikam.com that are encrypted and received from the third-party service.

Which two settings should you modify for the connector? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Edit Connector

What security restrictions do you want to apply?

Reject email messages if they aren't sent over TLS.

And require that the subject name on the certificate that the partner uses to authenticate with Office 365 matches this domain name

*.fabrikam.com

Reject email messages if they aren't sent from within this IP address range

QUESTION 230

Hotspot Question

You have a Microsoft Exchange Online tenant.

You have an on-premises scanner that emails scanned documents by using SMTP.

You need to create a Microsoft Office 365 SMTP relay to route email from the scanner to the internet. The solution must ensure that the connector accepts only email sent by the scanner.

How should you configure the connector? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Select your mail flow scenario

Specify your mail flow scenario, and we'll let you know if you need to set up a connector.

QUESTION 231

Drag and Drop Question

You have a Microsoft 365 subscription.

You need to modify the anti-spam settings to meet the following requirements:

- Quarantine spam for 30 days.
- Notify administrators if users are blocked for sending spam.
- Every three days, provide users with a report that details which email messages were identified as spam.

Which spam filter policy should you modify to meet each requirement? To answer, drag the appropriate policies to the correct requirements. Each policy may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Policies	Answer Area
The connection filter policy	Quarantine spam for 30 days: <input type="text"/>
The default spam filter policy	Notify administrators if users are blocked for sending spam: <input type="text"/>
The outbound spam filter policy	Every three days, provide users with a report that details which messages were identified as spam: <input type="text"/>
The spoof intelligence policy
